1. Those present were:

Chairman

Executive Secretary

2. The minutes of the Fifth meeting of the Support Development Panel were reviewed. There were no comments.

3. The Panel then turned to consideration of requests for permanent assignment of two Support Officers Development Program participants to individual Support Services- [redacted] to the Security Career Service and [redacted] to the Logistics Career Service. After considerable discussion and with the understanding that the recommendations made in connection with these cases would in no way create a precedent for the consideration of future requests, approval of the proposed transfers was recommended. It was noted that [redacted] had, ever since entering on duty with the Agency, expressed strong preference for assignment to the Office of Security and that [redacted] in addition to being extremely interested in the work he is now performing in the Office of Logistics, is pursuing a course of study directly related to his present endeavors.

4. The Panel then reviewed a series of proposals for promotion which, in accordance with the provisions of paragraph 5. of the minutes of the Fifth meeting, should be effected. It was recommended that the following promotions be made, subject to the concurrence of the component to which the individual is now assigned:

5. The Chairman then presented the requirements that have been received to date for the services of the Career Trainees shortly to be available for assignment. He noted that fifteen had been received from the Clandestine Services; five from the Office of Personnel; one from the Office of Logistics; one from the Office of Computer Services and up to six for training in proprietary activities. He urged that those Support Services that had not submitted their requirements do so immediately, even though formal requirements already outnumber the Career Trainees available for assignment.

6. The Chairman then reported that assignments for the three Trainees who are currently in the Paramilitary Course are now being arranged. It is likely

7. The group then considered the advisability of using Support Officers Development Program participants for temporary duty of brief duration abroad. It was noted that to date three of the Trainees have undergone this type of experience, had reacted favorably to it and had been well received in the stations to which posted. The consensus of the group was that this type of activity should not interfere with long-range plans, but that should an opportunity arise where a valuable experience would be provided the individual, without disrupting planned development, it should be considered.
